burenstam@gmail.com
(+46) 735 00 5004

Technical

Ruby	HTML5	Java
JavaScript	MySQL	Bash
Ruby on Rails	Git	LESS/SASS/CSS

Experience

Trialbee (trialbee.com) Full Stack Developer 2012 to present

Took over development of a prototype Ruby on Rails application, as the sole developer, and turned it into a full-fledged SaaS service.

Implemented both front- and backend, as well migrating our infrastructure to Amazon Web Services.

Introduced testing and TDD, in the before untested application, using RSpec and Jasmine.

Technical Environment Ruby, Ruby on Rails, JavaScript, RSpec, MySQL, AWS.

Sprinkle (sprinkle.se) Consultant 2013

Developed a inline WYSIWYG content management system for Sprinkle.

Built and deployed the system end-to-end.

Technical Environment Ruby, Ruby on Rails, JavaScript, Turbolinks, PostgreSQL.

Lunicore Consultant 2012

Worked as a web developer for Lunicore. Which meant communicating and understanding customers needs and then deliver.

Technical Environment Ruby, Ruby on Rails, JavaScript, HTML5, CSS, AJAX.

Transputec Ltd. Summer internship 2012

Developed a cross-platform HTML5 application for an in-house PrestaShop deployment.

Technical Environment JavaScript, AJAX, Phonegap.

Projects

Swedish Translation Coordinator at bitcoin.org

bitcoin.org

Took over as the Swedish translation coordinator (2014) for bitcoin.org. I've always been fascinated by the technology behind Bitcoin.

git-story

git-story

Project at Lunds Technical University, to help younger student getting started with a branch-based workflow (GitHub Flow) using Git.

Open Source

GitHub

I'm really passionate about open source and try to find some time to contribute.

Education

Computer Science and Engineering 2009 to 2012

Lunds Technical University, Sweden
